

Heavenly Father, we humbly come before You, giving thanks for the many Blessings You have given us. We thank You for each and every beat of our hearts. We thank You for life in every form. But most of all we thank You for the blood Your son shed for the remission of sin and for being our protector against all the evils and dangers of this world.

We also thank you for the Heavenly home You have prepared for us when we transition from from earth to heaven.

Father we ask traveling grace for those who choose to travel this year. Guide and keep each of them and their loved ones safe.

Please comfort all who will have an empty chair at their table this year, assure them that their loved one is safe with You in their Heavenly Home.

Please heal the sick among us be they physically or psychologically ill. Please surround them with Your Angels giving each of them the loving care they so desperately deserve.

Keep all Veterans who are presently serving this nation in a foreign land or on domestic soil safe. Assure them that we are praying for their safe return to their family and loved ones. Also assure them that You and Your Angels are there to guide and protect them as they serve and protect this nation.

Please continue to Bless each individual worldwide and please continue to give added blessings to the United States of America.

Amen
